Over the last 50+ years, Petco has become the trusted source for high quality, premium pet products and services across the U.S. We're focused on delivering outstanding customer service, a fun and convenient shopping environment, and a range of products, services and knowledgeable store partners to help our customers be great pet parents.

We do this by going beyond a pet's physical needs by also serving their mental, emotional and social needs. Our pet services include a full range of in-store grooming, training and vaccination services.

Our trainers focus on empowering new pet parents with positive tools for interaction, while our product teams work to ensure we offer a wide range of healthy, stimulating and calming products and services for every pet's needs. Our groomers and pet stylists offer a variety of services and solutions to help you take great care of your dog, from head to tail.

**Grooming:** Petco grooming starts with our 7-point check-in and our professional pet stylists provide the best services and solutions for your pet. By logging notes on the pet's health during each grooming visit, they can compare notes from previous visits and track any differences. The information is shared with pet parents, so they can take their pet to a veterinarian for proper diagnosis. Our full-service baths include all natural shampoos and conditioners.

**Positive Dog Training:** Petco and Unleashed by Petco offer a variety of positive reinforcement based group and private classes. From potty training to advanced level adult classes we can help. Petco now offers AKC S.T.A.R Puppy and Canine Good Citizen testing.
